Marcel Flipse — Managing Director / Founder
marcelflipse@naverdi.com

Capability Statement

Consultancy, interim and project services for companies active in the Marine & Industry markets.

Executive Bio

Marcel Flipse is Managing Director & Founder of Naverdi, advising companies in sustainable shipping, energy transition and industrial technology. With a background in engineering, international business development and general management, he supports boards, founders and leadership teams in strategic positioning, governance, and the commercialisation of decarbonisation and energy-efficiency solutions. He is available part-time for selective board and advisory roles.

Focus

Green shipping, decarbonisation, energy efficiency, IMO navigation and go-to-market support.
